### **What about moving on the rink, where and when?**

In fours the Leads and Number Twos start at the mat end and the Number Threes and Skips are at the head. At the mat end players stand well behind the mat until all woods have been bowled.

When you bowl it is advisable to watch the bowl until it stops, then vacate the mat. You may not seek positional information from a marker or teammate until you are about to deliver your next bowl.

After the Leads and Number Twos have bowled they go to the head, having only a cursory glance (NOT getting right in to have a look!) and stay well behind the head. Some recommend being behind the back wood. Number Threes and Skips will be doing most moving in a game. Remember that the Number Three should leave the head as the Leads and Number Twos come up to the head. Skips will cross over with the Number Threes when they have bowled their woods. Skips can stay at the head if it is their opponent to bowl first, but make sure that this is acceptable in that particular match situation.

Whatever you do when you are at the head, keep still, no arm waving, moving or going into the head when you should not be there. It will be challenged from the mat.

**To help maintain the green, please do not sit on the sides with your feet on the edge of the grass.**

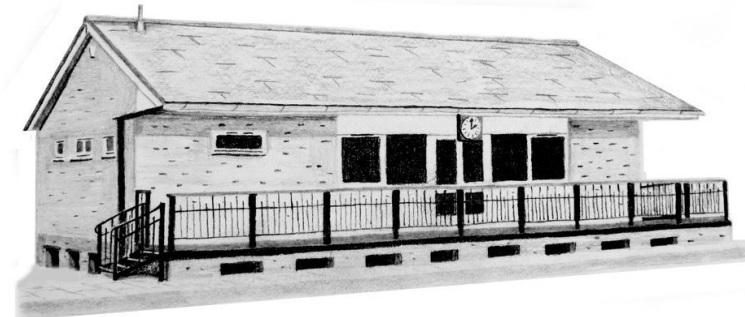

**Smoking, e-cigs and vaping are not allowed on or around the bowling green.**

## ETIQUETTE

Nobody told me that before!

What to do, or what not to do, when I'm playing bowls.

### Where do I stand on the bowls rink?

### How close should I get to the head?

At the 'mat end' you should always be well behind the mat. This means you will be out of the eye line of the bowler on the mat. If you do go too far forward you may be asked to stand back.

At the head etiquette says that you should stand well back from the jack – six feet minimum, and it is better to be further back. To stand too close and block the view of the opposition's skip or three when it is their side's turn to bowl is to be avoided. Never go into the head 'just to have a look' when it is the opposition's turn to bowl.

### What can I say without upsetting anyone?

This is the most difficult thing any of us have to think about. It is considered 'bad form' to talk your opponent's woods through a gap, or to hit a short wood, while saying 'well bowled' if your team has a bit of luck. Between friends in a roll-up we say things that in matches, even between teams in an Attenborough competition, are regarded as against the spirit of the game. To will a wood out loud to 'wick in', if it's yours, or to 'wick out' if it is their wood can cause, and has caused, real problems on the green.

Too many players do not think about what they are saying. Rethink your phrases! Say, 'I think that's going through the gap', rather than 'go on get through the gap!' Always be aware that comments meant in fun can, and do, offend other people.

#### The Bowling Green

It has been said that our venue on the edge of the Attenborough Nature Reserve is one of the most picturesque in the County. First founded in 1908 Attenborough Village Bowls Club was reformed in 1981 and in 1991 moved to the present site on the outskirts of Nottingham, about halfway between Beeston and Long Eaton. During 2012 the local River Trent Flood Alleviation Scheme was installed, which means that a new bowling green was laid. This was opened by the Mayor of Broxtowe, Coun. Margaret Handley, on Saturday, April 20th 2013. Members also did work on the pavilion so providing a bigger space for teas and social occasions.

#### Members

Whether you are a beginner, an improver or an experienced player wanting to play at a good standard, or somewhere in between, you are very welcome as a member of the club. Members meet for casual play on Monday, Thursday and Saturday afternoons, and occasional Wednesday evenings, and these form an important part in helping the social interaction between members. They also provide a good opportunity to instruct new members about the game of bowls. Members are requested to avoid playing when the pavilion is booked for external activities e.g. Probus on second Thursdays. Playing during Tuesday morning maintenance should also be avoided

**If you are unsure of anything, just ask any club member.**
